

13 December 1951

MEMORANDUM FOR: Director of Training

FROM : Deputy Director (Plans)

SUBJECT : Effects of the Wartime Role of CIA on the Mission of the Office of Training

REFERENCE : Memorandum, same subject, dated 23 November 1951, for Deputy Director of Central Intelligence, from Director of Training.

1. Your memorandum of 23 November, referenced above, has been forwarded by the DDCI to me for consideration.

2. It is obvious that planning information which will indicate training requirements under various contingencies, including that of all-out war, must be made available to the Office of Training if you are to properly plan for and carry out your mission. I am, therefore, instructing OPC, OSO, OO, Office of Communications, and the Technical Services Staff to make such information available to you and to call upon you to participate in such planning to the extent that this may be desirable.

3. The offices of CIA, other than those mentioned above, must likewise have plans for various contingencies which would effect their operation and it is suggested that you work directly with these offices in developing the information which you require. I have spoken to the Deputy Director about this procedure and he has approved of it.

/s/ Frank G. Wisner
